

DVWCT and DVPLT Training Announcement

Title: **Confined Space Entry**

Description: OSHA defines “permit-required confined spaces” as a confined space that has one or more of the following characteristics:

- (1) Contains or has a potential to contain a hazardous atmosphere;
- (2) Contains a material that has the potential for engulfing an entrant;
- (3) Has an internal configuration such that an entrant could be trapped or asphyxiated by inwardly converging walls or by a floor which slopes downward and tapers to a smaller cross-section; or
- (4) Contains any other recognized serious safety or health hazard.

This seminar discusses what constitutes a confined space, reviews potential hazards that could be contained and details best practices for protecting public employees required to work in such environments. **This seminar is approved for 3 Pa. DEP water/wastewater operator contact hours.**

Provider: Mike Pacana, Senior Risk Consultant

Schedule: Wednesday, February 26, 2020 - 9:00 a.m. to noon
